

Appl. No. 10/604,515
Amdt. dated 10/12/2005
Reply to Office action of 04/13/2005

REMARKS

Original claims 1-20 are respectfully canceled and replaced with new claims 21-40.

The examiner objected to the drawings under 37 CFR 1.83(a). The examiner stated that the "coiled tubing must be shown or the feature(s) canceled from the claim(s)." Applicant respectfully submits that the application fully discloses and enables the claims as originally submitted and amended herein.

35 U.S.C. § 113 "Drawings" states in part, "[t]he applicant shall furnish a drawing *where necessary for the understanding of the subject matter sought to be patented.*" (emphasis added). Applicant respectfully submits that "coiled tubing" is well known in the art and is understood by those skilled in the art without being illustrated in a drawing.

Applicant respectfully submits that new claims 21-40 are novel and unobvious. The prior art fails to teach, disclose or suggest Applicant's claimed invention, singularly or in combination. Applicant respectfully requests that the rejections and objections be withdrawn and a Notice of Allowance be mailed.

Respectfully submitted,

Dave Cate
